

WHAT IS GOING ON IN WESTERLY

Petition For Day and Night Patrolmen in Pierce Street Section—Thomas J. Bannon Asks Town Council For Druggist's Liquor License—Winners of D. A. R. Prizes Announced at High School.

Angelo Cappuccino, while not much opposed to licensed liquor saloons, is very pessimistic as to some of the results, especially in the Pierce street section, where he owns property. Before a license was granted he appeared at a meeting of the town council and declared that with the licensed saloon increased protection was an absolute necessity in that section, but no action was taken. Mr. Cappuccino made another try along the same lines at the special meeting of the town council, Wednesday evening, this time being backed by a petition which he had circulated and secured 52 signatures. He not only insisted that there was need for a policeman for day duty, but another for night service, and he suggested the names of men he considered fitted for the place.

The councilmen gave Mr. Cappuccino the attention due a respectable taxpayer and then referred the petition, and all matters pertaining thereto, to the police committee.

Supported by a petition signed by all the Westerly physicians and many other citizens, Thomas J. Bannon renewed his efforts to obtain a druggist's license at the special meeting of the town council Wednesday evening. It was conceded by all members that Mr. Bannon was a legitimate drug store where prescription work was a main feature and, under ordinary circumstances, was among the first that should be granted license. But there is a case pending against him in the supreme court for violation of the liquor law, which is almost equivalent to conviction, and the council decided to continue the application for further consideration.

Should the present case be settled, or assurance given from the attorney general's office that the granting of a druggist's liquor license to Mr. Bannon would not in any way compromise the case, a license would be granted by the town council.

But for the timely discovery by Edwin D. Hawkes and the prompt and energetic work of Policeman Edward West, Constable John Reardon and Dwight Rogers, there would probably have been a disastrous fire in High street, Wednesday night. Mr. Hawkes, in passing the property sold by the estate of William H. Hawkes, to William D. Critcherson, noticed a light in the new garage and detected a strong smell of what he believed to be burning wood. He at once notified Senator Louis W. Arnold, who occupies the adjoining property, and at his suggestion Mr. Hawkes hurried for assistance, returning with Messrs. West, Reardon and Rogers. They forced open the door and found the place to be on the verge of burning and by prompt work prevented a fire that might have been serious, as the wind was blowing almost a gale.

WHAT IS BEST FOR BABY'S DELICATE SKIN

Because of its delicate, sanative, emollient properties, united with the purest of cleansing ingredients and most refreshing of flower odors, Cuticura soap is the mother's favorite for preserving and promoting skin and hair health of infants and children. In the treatment of distressing, disfiguring eruptions, from infancy to age, no other method is so pure, so sweet, so speedily effective as warm baths with Cuticura soap and gentle applications of Cuticura ointment. No other costs so little and does so much.

HOUSE MEMBERSHIP 440.

Smallest Number Under Census Bu-
reau Method of Apportionment.

Washington, Dec. 22.—A house mem-
bership of 440 is the smallest number
under the census bureau method of
apportionment that will result in not
decreasing the present number of rep-
resentatives from any state, as an-
nounced in a detailed statistical state-
ment submitted to the house commit-
tee on the census today. The state-
ment was arranged to show the exact
effect under any particular proportion
of representatives to the population
under the returns of the thirteenth
census. It starts with a minimum of
390 which is one less than the present
size of the house, and ends with a
maximum of 440, each table showing
whether on such a calculation a states
representation would be diminished,
increased or unchanged.

SKATERS STUMBLE ON A BODY.

Fatal Iceboat Accident on Great South
Bay.

New York, Dec. 22.—Skaters on
Great South bay, near Patchogue, L.
I., this afternoon stumbled on the body
of George Brown, lying face downward
on the ice. Two miles away they
found an abandoned iceboat in which
lay the rigid body of Raymond Strong,
a 15-year-old boy. The craft had
thrown its pilot, Brown, who appar-
ently lay unconscious on the ice until
dead, and the terrified lad had re-
mained with the derelict at the mercy
of the wind until he, too, was frozen.
Brown, the son of a well to do fam-
ily, was an expert ice yachtsman, but
the boy was a novice. The assump-
tion is that Brown in some way lost
control and was pitched headlong to
the bay's frozen surface. A gush in
his head and frozen blood about his
face indicated that he was thrown vio-
lently.

BISHOP NILAN HITS TRUSTS.

Says Offenders Eventually Will Get
Their Deserts.

Speaking at the high mass in St.
Joseph's cathedral, Hartford, Sunday,
Bishop John J. Nilan, head of the
Catholic diocese of Connecticut, flayed
the trusts that control living neces-
sities and denounced speculators who
force the prices of foodstuffs to pro-
hibitive figures, declaring that such of-
fenders would get their just deserts,
sooner or later.

"The people who sell by short
measures and weights are an abomi-
nation in the sight of God and men,"
said the bishop, "but those people who
buy with no expectation of paying are
infinitely worse, because each article
bought must be paid for sooner or later
and the burden falls on poor people
who purchase."
